Targeted university research, advanced manufacturing technologies and precise product formulations has made New Generation Supplements® an industry leader in the development of advanced livestock feed supplements.

- University research-proven SmartLic® supplements ensure the best animal performance results.
- Specially formulated and fortified with essential nutrients, SmartLic® supplements support all stages of animal production.
- Year-round feeding applications allow producers to develop programs that address specific basal diet deficiencies.
- Predictable consumption makes SmartLic® easy to manage, with less waste, and lower supplement feed costs.
- On-time nutrient delivery means cattle get what they need, when they need it.
- Quality assurance responsible manufacturing provides producer peace of mind.
- Flexible packaging options and sizes meet the needs of any operation.
- Strategic placement of SmartLic® supplements can assist with pasture management.
- Self-fed & convenient SmartLic® supplements save time and effort versus other supplement feeding options.

SmartLic® supplements are formulated to address basal diet deficiencies, typical in both grazing and harvested forage feeding situations. Each SmartLic® supplement is Nutritionally Engineered to provide proper levels of protein, vitamins and minerals to help support maintenance, growth, lactation and reproduction.

SmartLic® supplements are supported by extensive university research and produced through a patented manufacturing process that provides a self-fed, controlled delivery system which allows for nutrient absorption throughout the day.

NUTRITIONALLY ENGINEERED®
THE SMARTLIC® ADVANTAGE

RESEARCH DRIVEN
- University research-proven SmartLic® supplements ensure the best animal performance results.
- Specially formulated and fortified with essential nutrients, SmartLic® supplements support all stages of animal production.
- Year-round feeding applications allow producers to develop programs that address specific basal diet deficiencies.

PERFORMANCE FOCUSED
- Predictable consumption makes SmartLic® easy to manage, with less waste, and lower supplement feed costs.
- On-time nutrient delivery means cattle get what they need, when they need it.
- Quality assurance responsible manufacturing provides producer peace of mind.

FIELD PROVEN
- Flexible packaging options and sizes meet the needs of any operation.
- Strategic placement of SmartLic® supplements can assist with pasture management.
- Self-fed & convenient SmartLic® supplements save time and effort versus other supplement feeding options.
